

FREE CONSULTATION

Do you, a friend or family member have a problem that might benefit from physical therapy? Do you suffer from an injury or other condition that interferes with sports or your quality of life? Or perhaps you are interested in knowing if a “Performance Enhancement Program” might improve your game.

Find out! Consult, free of charge, with a trained physical therapist that will understand your situation and your goals. He or she will tell you honestly if s/he can offer help and, if so, what your program might involve. If you need a physician referral, we can recommend a doctor, or help you get one from your own physician.

Simply fill out the form below for yourself, your friend or family member and drop it off at Aloha Physical Therapy, fax it to 235-7992, or call 235-7999 and we’ll schedule your free consultation.
